

# AAA Intergalactic Launches Futuristic Financial Niche To Create Jobs!

**AAA Intergalactic Investments Group is Ready to Facilitate Funding of Revolutionary Investments Worldwide.**

AAA Intergalactic Investments Group (AAA Intergalactic), an investment group with headquarters in the US and in Germany, founded by the young and dynamic European-African Princess Rachel Belle, is all set to fund social projects in promising emerging markets.

CEO and Founder Princess Rachel Belle said the group's "primary mission is to promote a fair funding system, thereby enabling industrialisation and a better socio-economic future for the youth".

The German-Cameroonian Princess Rachel Belle recently journeyed to Africa, where she was warmly received by the Prime Minister of Cameroon, His Excellency, Dr Joseph Ngute. He stated that his government and cabinet are encouraging young entrepreneurs in Cameroon and will co-operate with AAA Intergalactic led by Princess Belle to promote Cameroon as an attractive investment destination in Africa.

Cameroon is the 14th richest country in Africa according to statistics provided by [worldsrichestcountries.com](http://worldsrichestcountries.com).

## Mission

In a world where hunger still exists, and injustices are multiplying, the desire to succeed socially and economically is more than ever synonymous with the creation of a better world. AAA Intergalactic has dedicated itself to this task for a brighter common future for all. The Group is a unique Investor with a mission to promote a fair system of financing which, subsequently, will facilitate industrialisation in several marginalised communities worldwide.

The CEO, Princess by birth summed up the attitude of the AAA Intergalactic Investments Group in a recent interview:

**"We give a fair chance to those left behind, to those who scream without a voice, to those talented ones without fair opportunities."**

Princess Rachel Belle

Princess Belle founded this Investment Group to disrupt the known bottlenecks along the flow of global investments.

According to the CEO, AAA Intergalactic's immediate plan is to create "thousands of jobs by way of innovative investments, microfinance, private equity and special project financing, as well as mergers and acquisitions around the world."

This process will focus mainly on Africa, Europe, America and other continents where a financial injection, tailored to the needs of promising companies, will energise developing communities. A reduction in poverty and an improved socio-economic future for young people would be a direct result of this system.

This result will be achievable through selecting the most promising entrepreneurs in each community and supporting them through the unique financial platforms of the AAA Intergalactic Investments Group.

IN PLAIN WORDS, AAA INTERGALACTIC STRIVES TO EXECUTE TWO ACTION PLANS:

- 1 Invest in hard-working communities that need it the most.
- 2 Create, by investment, a fair system that fosters businesses and creates jobs

At the start of this year, the group created a "Fair Funding" programme designed to offer candidates a diversified capital base and is adapted to the needs of local entrepreneurs.

Passion – Commitment – Integrity; these are the three symbolic stars guiding AAA Intergalactic as it promotes fairness and justice in future marketplaces within developing communities. This is AAA Intergalactic's niche – to provide care and capital to those who are most in need of Fair Funding.

## Investments Combined with Philanthropy

"The time has come to move in the right direction with quick and effective action" said AAA Intergalactic's CEO, adding:

**"Poverty is the only illness that cannot be diagnosed by doctors but that financial institutions can and should treat."**

Princess Rachel Belle

The young innovative and savvy CEO has been generously welcomed by African aristocracy such as His Majesty Joseph II Ekandjoun, King of Baréhock. Princess Belle has been hailed as a model global citizen /philanthropist/activist and an excellent entrepreneur.

*Joseph II Ekandjoun, King of Baréhock/ Littoral/ Cameroon*

*AAA Intergalactic's CEO donated school supplies and gifts to students.*

*Princess Belle donated school supplies to the Lycée's management, and gifts to the best teachers.*

In January 2019, during her visit to Cameroon, Princess Belle donated school supplies to the Lycée's management, and gifts to the teachers with the best performance. She also distributed scholarships based on academic excellence to 19 students at Baréhock High School in Littoral. Many recipients were young women who, absent such generous donations by AAA Intergalactic under the direction of CEO Princess Belle, may have become dropouts due to cultural attitudes, domestic duties, early marriage, early pregnancy, and social vices that are used as a means of survival.

The boys are equally unfortunate due to rampant child labour law violations. In Africa and the Middle East, 73.3 million children between the ages of 5 and 17 are engaged in child labour. <sup>1</sup>

The AAA Intergalactic scholarships are therefore not just a philanthropic so-called "nice gesture"; these are necessary investments to help students, especially women, and the communities in general, stave off poverty.

AAA Intergalactic's CEO Princess Belle distributing cash gifts to the best professors in Africa

The students were thrilled and spontaneously sang to thank Princess Belle.

After being graciously thanked by the high school principal and the grateful students, Princess Belle went on to network with the country's leaders, advocating for the creation of local jobs and the adoption of her Group's investment system: **AAA Intergalactic's Fair Funding**. Princess Belle, with determination and the full force of her winning spirit concluded: "We must first create thousands of jobs, then I will rejoice!"

## Select the best, encourage the rest

Oliver Bierhoff and Princess Rachel Belle

The coach of a football team must detect the best players so that he can lead a team of winners. Joachim Löw and Oliver Bierhoff, coaches of the German team, were able to put together a group of highly talented players who went on to win the World Cup and make Germany proud.

The AAA Intergalactic teams, in this same spirit of competition, are selecting the African winners of the future because their CEO has a vision of Africa, once again basking in all her beauty and splendour.

AAA Intergalactic will be the front-runner in showing other financial companies the great investment potential in Africa. New trends in technological innovation and better ecological systems continue to emerge.

The visionary, Princess Rachel Belle, defines "futuristic companies" as those with the best chance of succeeding in the future, especially in burgeoning markets such as advanced logistics, renewable energy, green solutions, high-yield crops, artificial intelligence, and smart cities. These new industries, along with other high-growth sectors, will directly reduce local and global poverty while creating sustainable vocations.

In summary, after choosing the most underestimated companies for direct financing, AAA Intergalactic will provide appropriate support and education to those who show high potential for success. The group hires the best of talents so that they can work for the enrichment of the communities.

AAA Intergalactic is the first independent financial group dedicated to presenting a financially fair, futuristic and diversified investment platform. Its difference to other companies in its field lies in its sincere motivation: to offer socially responsible investment opportunities to those who are not only most disadvantaged but who also show the most significant potential to succeed.

AAA Intergalactic is flexible, fast and efficient with maximum cost reduction in processing funding requests in 3 to 6 weeks, instead of the usual 3 to 9 months.

**AAA Intergalactic is the leading independent, futuristic, financial services provider in its targeted communities.**

In pointing out what makes the group competitive, AAA Intergalactic's Chairwoman said:

**"Accurate analysis and prognoses help us identify future trends and select the best with the highest potential. We bring profound cultural and political understanding.**

**Our decision-making process is efficient and at least 10 times faster than other processes."**

The Group does not only confine itself to conventional project funding and infrastructural investments. **The AAA Intergalactic "Fair Funding system" is unique;** AAA Intergalactic focuses on bringing dynamic futuristic investments into several vertical markets in regions where poverty, lack of opportunity and inequality still prevail. Its major focus areas are:

- ➔ Futuristic Logistics
- ➔ Smart Cities
- ➔ Renewable energy
- ➔ Innovative and healthy agriculture methods
- ➔ Futuristic infrastructure
- ➔ Artificial Intelligence
- ➔ Micro-financing
- ➔ Private equities
- ➔ Project financing

AAA Intergalactic and partners are currently working on the implementation of impactful and lucrative projects that will create approximately 1030 sustainable jobs within the next 18 months.
